Eurodoor elabora sus puertas con chapa de madera natural. Como materia prima cien por cien natural, posee dibujos y tonalidades únicas propias de cada especie y de cada árbol, por ello los tonos impresos en esta publicación son orientativos y no tienen porque coincidir con los productos entregados.

Eurodoor prepares its doors with natural wood veneer. As raw material one hundred percent natural, has only ones designs and colors of each species and each tree, so the colors printed in this publication are noncommittal and not have to match the delivered products.

Eurodoor.es

Tiene Eurodoor a un click de distancia. En www.eurodoor.es y en nuestro perfiles sociales encontrará todas las soluciones funcionales y decorativas alrededor de la puerta, novedades, consejos de mantenimiento, tendencias decorativas....

Has Eurodoor a click away. In www.eurodoor.es and our social profiles find all functional and decorative solutions around the door, news, maintenance tips, decorating trends...
